Ubiquinol has superior bioavailability and is 3-8 times more absorbable than Ubiquinone therefore providing more healthy benefits

## WHAT IS COENZYME Q10? WHY IS IT IMPORTANT TO US?

Coenzyme Q10 (CoQ10), also known as ubiquinone is a vitamin that is important for energy production. It can be found in all tissues and organs of the body especially heart organ that requires a lot of energy. It is also an antioxidant that protects from oxidative damage.

Imbalance meal, aging and oxidative stress could reduce CoQ10 levels in the body. Hence, supplementation is necessary to replenish CoQ10 stores to normal levels.

There are a lot of CoQ10 products in the market. However, unlike ours, most of them are not Activated CoQ10 or Crystal Free CoQ10. **NuFinity® UQuinol+ Crystal Free CoQ10** is scientifically proven to be superior out of all of them. **NuFinity® UQuinol+ Crystal Free CoQ10** is 8x better absorbed into the body providing 4.3x higher bioavailability.

### Benefits of NuFinity® UQuinol+ Crystal Free CoQ10

- 1 Support heart function.** Heart muscles have the greatest concentration of CoQ10 which is one of the reasons why CoQ10 is so important for cardiovascular function.
- 2 Maintain blood pressure** by relaxing the blood vessel muscular walls and widening the blood vessels.
- 3 Increases circulation to the heart** by preventing plaque build-up in the arteries.
- 4 Improve exercise capacity** by increasing muscular Q10 levels, control inflammation and fatigue following intense exercise.
- 5 Enhance sperm function** and improve male infertility by increasing sperm count and motility.

## Frequently Asked Question

### Who should consume **NuFinity® UQuinol+ Crystal Free CoQ10**?

- ✓ Research shows that aging, certain medications such as statin drugs, and certain disease states can deplete CoQ10 levels in the body. Therefore, for many people, supplementation is indicated to replenish CoQ10 stores to normal levels.

### What is the difference between Ubiquinone and Ubiquinol?

- ✓ Ubiquinone is the regular form of CoQ10 while ubiquinol is the active form of CoQ10. The body produces CoQ10 (ubiquinone form) then converts it into ubiquinol form to fight free radicals and generate energy. As we age, the conversion process becomes less efficient. **NuFinity® UQuinol+ Crystal Free CoQ10** can work instantly after consumption — no conversion needed.

### Why should we choose Crystal-Free formula?

- ✓ Absorption of dietary CoQ10 is slow and limited. **NuFinity® UQuinol+ Crystal Free CoQ10** is formulated with medium chain triglycerides that solubilize and prevent crystallization of CoQ10. Solubilized, crystal free CoQ10 formulation is scientifically proven to enhance absorption and bioavailability significantly.

### Who should consume **NuFinity® UQuinol+ Crystal Free CoQ10**?

- ✓ People who are over 40, exposed to oxidative stress or concern about their cardiovascular health should consume **NuFinity® UQuinol+ Crystal Free CoQ10**.

### Can **NuFinity® UQuinol+ Crystal Free CoQ10** help improve male infertility?

- ✓ Yes, **NuFinity® UQuinol+ Crystal Free CoQ10** may help improve sperm function by increasing sperm count and motility.

**NuFinity® UQuinol+ Crystal Free CoQ10** unique Crystal Free formula does not require conversion, ready to be utilized by our body and completely solubilized for immediate absorption, superior bioavailability and ultimate efficacy.

- ✔ Readily absorbed active CoQ10 form for effective utilization by the body.
- ✔ Crystal free formula with 8X better absorption of CoQ10.
- ✔ 100% soluble, liquid formula with 4.3X better bioavailability of CoQ10.
- ✔ High quality ingredient to naturally support cell function, reduces inflammation, repair cellular damage and improve energy production.

Apex Biocare Sdn Bhd has seen humble beginnings from a small company in 2016 to a well-known, systematic and established nutraceutical company.

NuFinity® Malaysia, a trusted International nutraceutical brand developed by Apex Biocare. A wide range of nature-derived health supplements are designed as a total solution of health & wellness for the modern lifestyle.

NuFinity® represents our spirit that is ever willing to go extra mile to strike a remarkable achievement in producing premium quality nutrition and supplement products. NuFinity® products are now listed in more than 200 retail outlet including Watsons Malaysia & phamarcies.
